

**Ad hoc announcement pursuant to Art. 53 LR**

Zurich, November 23, 2022

**Edisun Power bond issue attracts strong interest at almost CHF 35 million**

The CHF 20 million bond with a five-year term (December 1, 2022 – November 30, 2027) and a 3% interest rate issued on August 26, 2022 has met with extremely great interest among both existing and new investors.

The bond has been considerably oversubscribed with a total of CHF 34.73 million. The Board of Directors has decided to exercise the option in the issue prospectus and increase the size of the bond by CHF 14.73 million to CHF 34.73 million.

Edisun Power will use the funds to replace the 2% 2017–2022 bond for CHF 13.31 million due to expire on November 30, 2022 and to cover the Group's ongoing financial requirements.

Alongside the financial support, the company has detected a strong desire among investors for a rapid expansion of solar power production and a climate-neutral energy supply. This serves as encouragement for Edisun Power to advance even faster along the course embarked upon.
